

Amendments to the Claims

This listing of claims will replace all prior versions, and listings, of claims in the application.

Listing of Claims:

1. - 47. (cancelled)

48. (currently amended) A method of treating or preventing a microbe-caused disease of ~~at least one of skin, a mucous membrane and an oral cavity~~ that is associated with at least one of Methicillin-resistant *Staphylococcus aureus* (MRSA) and a multi-resistant pathogen, wherein the method comprises ~~an a topical~~ administration to the skin of a subject of oil of coriander in an amount which is effective for treating or preventing the microbe-caused disease.

49. – 53. (cancelled)

54. (previously presented) The method of claim 48, wherein the microbe-caused disease comprises at least one of a bacterial infection of the skin, a fungal infection of the skin, and a microbe-infected dermatose.

55. (withdrawn) The method of claim 54, wherein the microbe-caused disease comprises at least one of pyoderma, folliculitis, disease impertigo, erysipelas, a mycose or mold infection, and tinea.

P30391

56. (withdrawn) The method of claim 54, wherein the microbe-caused disease comprises at least one of atopic dermatitis, microbial eczema, chronic eczema of hands, psoriasis, prurigo, and acne.

57. - 60. (cancelled)

61. (previously presented) The method of claim 48, wherein oil of coriander or a composition comprising oil of coriander is administered to a contact site of the microbial disease with the oil of coriander and is allowed to exert an effect for a period of time which is sufficient for effecting a therapy of the microbial disease.

62. (previously presented) The method of claim 48, wherein the oil of coriander is used in a form of at least one of a solution, a spray, a tincture, an oil-in-water emulsion, and a water-in-oil emulsion.

63. (previously presented) The method of claim 48, wherein the oil of coriander is used in a form of at least one of an ointment, a lotion, a cream, a paste, and a powder.

64. (cancelled)

65. (previously presented) The method of claim 48, wherein the oil of coriander is used in pure form.

P30391

66. (previously presented) The method of claim 48, wherein the oil of coriander is used as a composition which comprises from 0.1 % to 10 % by weight of oil of coriander, based on a total weight of the composition.

67. (previously presented) The method of claim 48, wherein the oil of coriander is used as a composition which comprises from 1 % to 7 % by weight of oil of coriander, based on a total weight of the composition.

68. (previously presented) The method of claim 48, wherein the oil of coriander is used in combination with one or more substances selected from substances inhibiting inflammation and substances having an antimicrobial effect.

69. – 71. (cancelled)

72. (new) The method of claim 48, wherein the disease is prevented.

73. (new) The method of claim 48, wherein the disease is treated.

74. (new) The method of claim 72, wherein the disease is a bacterial infection of the skin.

75. (new) The method of claim 72, wherein the disease is a fungal infection of the skin.

P30391

76. (new) The method of claim 72, wherein the disease is a microbe-infected dermatose.
77. (new) The method of claim 72, wherein the disease is associated with Methicillin-resistant *Staphylococcus aureus* (MRSA).
78. (new) The method of claim 72, wherein the disease is associated with a multi-resistant pathogen.
79. (new) The method of claim 73, wherein the disease is a bacterial infection of the skin.
80. (new) The method of claim 73, wherein the disease is a fungal infection of the skin.
81. (new) The method of claim 73, wherein the disease is a microbe-infected dermatose.
82. (new) The method of claim 73, wherein the disease is associated with Methicillin-resistant *Staphylococcus aureus* (MRSA).
83. (new) The method of claim 73, wherein the disease is associated with a multi-resistant pathogen.
